Work Experience

Rundeck
Support Engineer
Jun 2021 to present

Rundeck is a tool that helps to define build, deploy and manage automation. It provides web console, CLI tools, and a Web API. It is written in Java and allows you to run tasks across a set of nodes. Have a lot of functionalities, and can be integrated with any OS, DB, and many app.

My **principal tasks** are:

* Help users to deploy Rundeck, in all types of environments
* Help users to resolve issues in Rundeck.
* Replicate environments of customers, in the cloud, and on-premises
* Join meetings with customers, to resolve their issues in live.
*Help customer with their integrations Integrations.

I work with **technologies** like OS: Windows Server, Linux (Ubuntu, Ubuntu server, Centos, RHEL). DB: Oracle, MySql, MariaDB, Postgres, MS SQL. VM: VirtualBox, Vagrant, Docker. Cloud: AWS, Azure. Code: Python, Scripting Bash. Connectivity: SSH, RDP. And more...

Work Experience

FlechaBus Group
IT Support Analyst.
May 2019 to Jun 2021

Working for the biggest bus companies in my country. I was encharged of the IT area in Cordoba City. Giving support to the ticket office in the bus station, in the offices-administration, and the ticket agencies of the country. My principal tasks were:
