Languages

Professional Skills

Education

System Analyst Degree
National University of Cordoba
Graduated in 2015

Courses & Certifications

Certified Kubernetes Administrator
KodeKloud - 2026

JSON Path
KodeKloud - 2026

KCS v6 Fundamentals Certification
Credly - 2026

English Cert EF SET 61/100 (C1 Advanced)
EF SET - 2026

English for IT 2
Cisco Netacad - 2025

Kubernetes Crash Course
KodeKloud - 2024

SoloLearn Courses
Certifications in: **Python**, **Python Core**, **SQL Intermediate**, **HTML**, **Java**, **JAVASCRIPT**, **PHP**
Intro to LLM, **Meet Claude**

PagerDuty API Certification
PagerDuty Academy - 2024

Ultimate AWS Certified Solutions Architect Associate SAA-C03
Udemy - 2023
Full Practice Exam | Learn Cloud Computing | Pass the AWS Certified Solutions Architect Associate Certification SAA-C03!

Web Development Bootcamp
Udemy - 2021
FullStack Course. HTML, CSS, JS, DOM, Jquery, Bootstrap, Node, Express, Mongo DB.

Java Development - Oracle
Taborin School - 2013
Java Language. OOP.

Cisco CCNA 1, 2, 3, 4
Taborin School - 2013
Routing, Switching, WAN, LAN, VLan, Structured Cabbling

Cisco Cybersecurity
Cisco Netacad - 2018
Security, Guard and prenvent future atacks.

NDG Linux unhatched
Cisco Netacad - 2018
Linux command line interface (CLI) in VMware workstation

NDG Linux Essentials
Cisco Netacad - 2019
Linux Course, Before LPI Linux Certification

IT Essentials Hardware & Software
Cisco Netacad - Taborin School
IT Course, for basic concepts of installation and reparation of PC's

Work Experience

Alation
Senior Support Engineer - Nov 2025 to present

- Act as an escalation point for complex, production-impacting issues on an enterprise **AI-powered data intelligence platform**.
- Diagnose and resolve reliability, performance, and integration issues across Linux systems, distributed services, databases, APIs, and web servers.
- Perform deep **root-cause analysis** using **logs**, **metrics**, database internals, and network traces; build lab environments to reproduce and validate fixes.
- Collaborate closely with engineering and product teams to improve system stability, operability, and customer reliability.
- Create and **maintain runbook**s, KB articles, and technical documentation to standardize incident response and reduce MTTR.
- Use automation and AI-assisted analysis to accelerate troubleshooting and proactively identify reliability risks.

Stacks:
Linux · PostgreSQL · OracleSQL · MySQL · MSSQL · Grafana · Python · REST APIs · NGINX · Elasticsearch · Docker · Kubernetes · Jenkins

Wallarm
Senior Support Engineer - Jul 2025 to Nov 2025

- Provided **Senior-level** technical support for a cloud-native API and web application security platform protecting billions of **API** requests per month for 200+ global customers.
- Deployed, configured, and troubleshot Wallarm solutions across **Linux** environments (**CentOS, Ubuntu, Debian)** and **Kubernetes** clusters using **Helm, Terraform, Docker, and Ansible.**
- Supported integrations with **Nginx**, **cloud infrastructures**, and distributed systems, ensuring secure and reliable traffic inspection and policy enforcement.
- Diagnosed complex production issues through deep analysis of Linux system logs, networking, routing, and **HTTP traffic** at Layer 7.
- Investigated and mitigated API and web security threats including OWASP Top 10 vulnerabilities, account takeover attempts, malicious bots, and L7 DDoS attacks.
- Authored technical documentation, how-to guides, and troubleshooting articles for the Wallarm Knowledge Base.

Collaborated cross-functionally with Engineering, QA, and Product teams by providing actionable customer feedback, feature requests, and post-incident reports.

Rundeck
Automation Support Engineer - Jun 2021 to Jul 2025

Supported and enabled enterprise automation using **Rundeck**, helping customers design, deploy, and operate **automated workflows** across hybrid and **cloud infrastructures**. Diagnosed complex system and integration issues, provided architectural guidance, and improved reliability of automation pipelines in on-prem and **SaaS environments**.
Worked hands-on with **containerized**, virtualized, and cloud-based infrastructures, leveraging **scripting and infrastructure-as-code** tools to support automation, deployments, and operational efficiency.
Technologies:
Linux, Windows Server, Docker, Kubernetes, AWS, Azure, Terraform, Ansible, Jenkins, Python, Bash, Oracle DBs, MySQL, PostgreSQL, MS SQL

FlechaBus Group
System Analyst - May 2019 to Jun 2021

Led IT operations for the largest bus transportation company in the country, overseeing infrastructure and end-user support for 100+ users. Responsible for workstation, server, and network administration, ensuring high availability, security, and operational continuity across the city branch.
Key responsibilities & achievements

- Provided support for workstations, servers, and network infrastructure
- **Windows Server 2012 Active Directory** environments
- Managed **Debian-based file servers**
- Configured and maintained **Sophos firewalls**
- Installed and supported CCTV and IP camera systems
- **Routers** and **switches** administration
- Supported remote access technologies (**RDP, VNC, TeamViewer, AnyDesk, SSH**)

Digito - Tina

Web design | Freelance - 2021

- www.tejidostina.com.ar
- Web design, eCommerce with CMS Tiendanube
- Domain name registration
- CSS styles for a custom web.
- eCommerce products administration

Grupo Gutti

Front-end | Freelance - 2020

- www.grupogutti.com
- Front-end web design
- Using HTML, CSS, JS, PHP
- Domain name registration.
- Hosting setting-up and configuration.
- Email accounts administration

Estudio Lopez Amaya

IT Support | Front-end Developer | Freelance

2010 - 2022

- Support in Win7, Win10, MacOs, and Networking
- Router configurations: site permissions. DDNS config. Port forwarding. IP config. Wireless settings, Security.
- Printers Installation and Configurations.
- DB developed with Access, storing all customers information.
- www.estudiolopezaamaya.com.ar
- Development and website administration.
- Front-end using HTML, CSS, JS, PHP.
- Domain name registration.
- Emails administration.
- Brand registration in Google Bussiness.
- Search Engines Organic optimization.

Nectarina Clothes

Web design | Freelance - 2020

- www.nectarina.com.ar
- Domain name registration
- eCommerce design with CMS Wix
- eCommerce products administration
- Google, brand registration
- Search EnginesOgranic optimization

Banco Julio

Operations IT - 2018

- Batch processes
- Daily/Monthly Backup of servers.
- VeemBackup Netbackup
- Win7, Win10, Networking, and Networking Support.
- Monitoring servers with Nagios
- ActiveDirectory users administration.

Inmobiliaria Merguerian

IT Support | Freelance

2006 - 2022

- Support in Win7, W10, W12, Debian, Ubuntu, Mint
- Win 2012 Server configuration. Active directory administration. Domain controller.
- Gsuite implementation and administration.
- Structured cabling.
- Router and switch config: ACL, permissions, forwarding, VLAN's, DDNS.
- PC and server backup with Uranium
- Network monitoring with Zabbix
- Trello, task management
- Installation and config of IP Cam, recording in Ubuntu Server.
- Brand registration in Google Business.
- Search Engines Organic Optimization
